THE STORY

SIMPLE, PERSONAL, FULLY INDEPENDENT

“I never planned on being an artist. I was making songs for myself because they helped me get through things. Then people started listening.”

longleggss is an independent artist and songwriter from Fresno, California. He made music on and off for more than 20 years while serving in the Marines and raising a family. The songs began as a way to get through his own life. Listeners heard themselves in them, and the audience kept growing. His sound blends alternative hip-hop, stripped acoustic songwriting and lo-fi production. He remains fully independent.
